

FIREWORKS PACKAGES

The products used in these pyrotechnic shows are of Chinese technology under ISO quality standards, therefore, they provide the safety and quality that is required for their activity. WE DO NOT MANUFACTURE, ALL OUR PRODUCTS ARE IMPORTED. High quality products are used, which have a more pronounced radius in terms of colors and durability of the effect in the sky.

Recommended time for all packages is from 5 to 10 minutes, the recommended time may vary depending on the coordination with the client in relation to the intensity of the show.

Our packages are recommended for weddings, birthdays, private parties, family parties, friends, corporate parties, corporate parties or any other activity that you want to give more excitement.

Professional line with powder category 1.3g and 1.4g, with effects of multicolored sequences s, x, w, z and w.

It should be noted that our company has vast experience and a great track record in the best events nationwide, we have a great technical team in handling these products and also have the knowledge of the latest trends worldwide.

TECHNIQUE TO BE USED:

1. Continuous sequence of effects.
2. different effects in the form of a fan which consists in covering more space with effects in the sky, such as a wall in angles from 225 ° to 335 ° multiple.
3. Coordination of colors and figures according to the ascending intensity of the Package.
4. Connection in different areas, in the terrestrial space to give better visual effects in the sky.
5. Wicks and electronic matches are used, guided with the latest technology in wireless consoles.

IMPORTANT

- All permits the Ministry of Health and Public Safety are processed by our company, according to the type of activity that is public or private, also according to the type of fireworks category to be used, the category 1.4g does not need permits.
- Our packages include: permits, transportation, installation, policy, show ignition and high quality technicians, with all the security measures required by our Occupational Health department and measures required by law.
- All Fireworks activation is done electronically to provide greater security, greater synchronization of the show and thus make a greater impression on the viewers.
- For greater security our technical team will make a previous visit to the place of the technical activity to know the measures and the type of effects to be used according to the area.
- In our shows the client does not have to worry about garbage residues or combustion, since the fireworks that we have completely disintegrate in the air does not fall in the area of the activity.
- All our pyrotechnic shows may vary according to the conditions: climate, space, existence and regulation of our authorities.
- Any pyrotechnic show can be varied according to the suggestions or possibilities of the client.
